Education

Northeastern University | Khoury College of Computer Science

May 2027

Candidate for Bachelor of Science in Computer Science & Design, minor in Writing

GPA: 3.75/4.00 | Dean's List

Related Coursework: Interaction Design I & II | Human-Computer Interaction | Web Development

Work Experience

UX Content Analyst | Northeastern's IT Services

September 2025–Present

- Applying UX writing principles to revise **380+** technical support articles monthly, reducing user friction through clearer, more actionable guidance.

UX Designer | Northeastern University Sandbox

August 2025–Present

- Managing design strategy for open-source recruitment platform serving a faculty client, conducting competitive analysis and user research.
- Collaborated in weekly design critiques with 10+ participants, iterating wireframes until stakeholder approval for development handoff.

Marketing & Communications Co-op | Northeastern IT Services

January–June 2025

- Maintained **10+** university websites in **WordPress**, improving mobile usability and implementing **WCAG 2.1** standards.
- Produced and edited **50+** articles on technology and AI for monthly university newsletters, clarifying complex topics and improving reader comprehension.
- Led UX research for a developing library of resources for diverse user groups, creating user personas and storyboards guiding the design process and information architecture.

Projects & Case Studies

Neighbor: Building a community-based work-life balance

September 2025–Present

- Leading end-to-end UX research and design for community-building mobile app, conducting 4 interviews and 2+ hours of contextual observation to identify key user pain points and refine product direction.

Note Mode - A Canvas Intervention

November 2024

- Conducted user research with 4 students, synthesizing insights into personas and user flows that informed iterative design of a Canvas annotation feature tested with 12+ students, achieving 95% positive feedback.

BookNook

November 2024

- Led end-to-end product design of a reading app, gamifying the reading experience with achievement-based goals, social features, and friendly competition that keeps users engaged.
