Education

Northeastern University | Khoury College of Computer Science

May 2027

Candidate for Bachelor of Science in Computer Science & Design, minor in Writing

GPA: 3.75/4.00 | Dean's List

Related Coursework: Interaction Design I & II | Human-Computer Interaction | Web Development |

Typography I | Design Process & Practices | Creative Non-Fiction

Experience

Marketing & Communications Co-op | Northeastern IT Services

January–June 2025

- Maintained and redesigned 10+ university websites in WordPress, improving mobile usability and implementing WCAG 2.1 standards while maintaining brand consistency.
- Led creative development and execution of digital and printed graphic assets for university campaigns including Global Accessibility Awareness Week and Data Privacy Week, managing multiple concurrent projects from concept through production and distribution.

UX Designer | Northeastern University Sandbox

September 2025–Present

- Leading UX design for SARGE, an open-source recruitment tool, conducting competitive analysis of 3 platforms to inform feature prioritization and interaction patterns.
- Presenting designs in weekly design critiques, incorporating feedback from software engineers and a faculty client to refine information architecture before development handoff.
- Designed, produced, and distributed the SARGE brand book, leading the creative process from concept to print for a campus event attended by 20+ Northeastern community members.

Digital Knowledge Content Writer | Northeastern's IT Services

September 2025–Present

- Create and design 200+ user-facing support articles, applying visual hierarchy and content structure principles to improve user comprehension and task completion.

Case Studies and Projects

Note Mode - A Canvas Intervention

November 2024

- Designed a Canvas annotation feature through iterative prototyping and user testing with 16 students, achieving 95% positive feedback on visual design and interaction patterns.

BookNook

November 2024

- Designed and prototyped a mobile reading app with gamification features (achievement tracking, social sharing, reading challenges), creating a cohesive visual identity and interaction system validated through user testing with 13 students.
