

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
- Has been a Computer Science professor at the university for a few years - Develops video games and publishes them for free in his free time - Comfortable with tech but doesn't have the time to explore newer features	- Passionate about helping students gain a seamless and fruitful time at the university, - Hosts office hours and has a Discord server for students to reach out at any time	Disorganized due to his many commitments not leaving time to organize consistently (two lectures, supervising NU's Game Development Club, his own video game side-gig, office hours...)	- Wants his students to feel empowered by their education in computer science - Wants quick accessible resources for his students to access

Keith Abdul
Professor, Northeastern University | Male | 43

On-board students to consistently use Teams meetings, chats, and channels

Journey Step	Sees a link to DigiU through a Northeastern ITS newsletter or email	Visits DigiU via email link	Sees link to trainings	Is redirected to Training site, and sees all the on-demand sessions for Teams	Emails link of Training site to his students, which helps them learn how to join the Team for their class
Feeling	 Intrigue, interest	 Slight Anxiety (new interface)	 Motivated	 Wonder	 Accomplished
Thought	<i>I'm pretty proficient at this stuff, so maybe it'd be more useful for my students.</i>	<i>These trainings could be helpful for my students! How do I access them?</i>	<i>They have trainings specifically for this! Awesome!</i>	<i>They have trainings specifically for this! Awesome!</i>	<i>That was simple! My students should be able to handle using Teams on their own now</i>
Internal ownership <i>What measures should be taken in this step from the service side?</i>	service action here....	service action here....	service action here....	service action here....	service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
- Has been working at the university for more than 15 years. - Prefers traditional teaching methods, hesitant about digital tools.	- Uses PowerPoint and Outlook, hesitant about collaborative tools like Teams. - Prefers in-person communication over virtual meetings	- Has limited experience with technology due to her initial work being primarily paper-based - Highly organized within her paper methods, and thus is stubborn when it comes to changing her habits	- Basic training on using Teams for discussions and a step-by-step guide to setting up OneDrive. - Learn basic digital skills to complete daily tasks without frustration

Barbara Freeman

Administrative Coordinator, Northeastern University | Female | 55

Learn basic digital skills to complete daily tasks without frustration

 Journey Step	Tries to find an important document her manager sent via OneDrive but can't find it → Receives an email from ITS about DigiU as a resource for learning digital tools → Visits the DigiU site and sees link to Trainings → Finds an upcoming in-person training about OneDrive → Attends OneDrive training, successfully finds the document she lost and shares it with her team
 Feeling	 Spike of anxiety  Hopeful  Contemplative  Relieved  Accomplished
 Thought	Why is everything so complicated now? I miss the old system. I've been meaning to get better at this... Maybe this could actually help me. Looks like there are videos to help people like me! I'll start with OneDrive training. This is definitely what I need! And I'm glad it's in-person so I can get hands-on help. I'll mark this on my calendar. That was way easier than before! I can actually do this on my own now.
 Internal ownership What measures should be taken in this step from the service side?	- advertising channels should cover all popular SM platforms the target market is used to. - App trailer: use <u>video or stories</u> format to show the app in action. - Video should link directly to play store. - service action here.... - service action here.... - service action here.... - service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
• A second-year CS graduate student specializing in software development. • Balancing coursework, research, and a part-time internship. • Looking to transition smoothly into a tech job post-graduation.	• Uses Microsoft daily for coursework, coding projects, and collaboration. • Comfortable with tech but hasn't explored all of M365's workplace applications. • Relies on OneDrive to store documents, but doesn't have any method of organization	• Struggles with project collaboration—unsure when to use SharePoint vs. OneDrive vs. GitHub. • Needs a place to find best practices for workplace communication and documentation.	• Learn how to use Microsoft 365 in a workplace setting (e.g., Teams for stand-ups, SharePoint for documentation). • Prepare for post-graduate careers by becoming proficient in workplace technology.

Alex Carter
Computer Science graduate student, NU Boston | Male | 23

Prepare for post-graduate careers by becoming proficient in workplace technology.

Journey Step	Browsing the university's career portal, Alex sees a link to DigiU	Visits DigiU site and sees link to Trainings	He starts a self-paced training learning about M365 apps.	Organizes his group project files into OneDrive, sets up a structured Teams channel, and schedules a virtual meeting for his team.	Completes any trainings that interest him
Feeling	Interest	Slight Anxiety	Engaged, reassured	Surprise	Confident
Thought	<i>This looks exactly like what I need! I wonder if there are beginner-friendly guides.</i>	<i>I wonder if there are any trainings about digital organization...</i>	<i>This is all really helpful! I should probably practice these newfound skills with my projects for school</i>	<i>I can see why companies use this—this is actually way more efficient.</i>	<i>I feel prepared and organized, so now I have the time to dedicate to preparing for interviews!</i>
Internal ownership	Internal ownership <i>What measures should be taken in this step from the service side?</i>	• advertising channels should cover all popular SM platforms the target market is used to. • App trailer: use <u>video or stories</u> format to show the app in action. • Video should link directly to play store. •	• service action here....	• service action here....	• service action here....

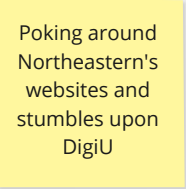

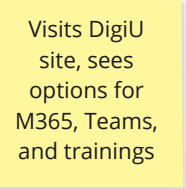

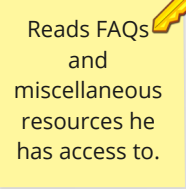

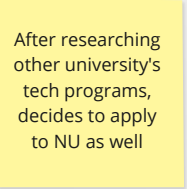

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
• High school senior, considering multiple universities for a computer science degree (including Northeastern) • Tech-savvy, already familiar with coding • Wants a university with strong tech infrastructure, modern tools, and good IT support to help him succeed.	• Compares universities based on their tech resources (e.g., do they provide free access to software like Visual Studio, MATLAB, or Adobe?) • Researches online extensively—university websites, Reddit, ...	• Dislikes and is frustrated by slow or outdated university websites. • Wants a modern, interactive experience when researching schools.	• Find the best-fitting school for him by researching universities' technology environment

Sam Matthews

Prospective Computer Science student | Male | 17

 Find the best-fitting school for him by researching universities' technology environment

Journey Step					
Feeling	 Intrigue, interest	 Curiosity	 Surprise	 Impressed	 Excited
Thought	What is this page for? What kind of tech things do they offer?	Are the trainings sign-ups not on this page? Maybe they're not available to non-students	Wow, they have a lot of resources!	There's already so much information here, and I'm not even a student! there would be a lot of resources available if I went here...	They seem to care about technology and its advancement! I think I'd be a good fit here
Internal ownership	 What measures should be taken in this step from the service side? • advertising channels should cover all popular SM platforms the target market is used to. • App trailer: use <u>video or stories</u> format to show the app in action. • Video should link directly to play store. •	• service action here....	• service action here....	• service action here....	• service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
- Adjunct professor teaching Sociology at the university for the first time. - Works fully remote to support her traveler lifestyle - Not well-integrated into campus resources.	- Prefers Zoom & Google apps over Teams and M365 apps - Has little experience with M365 and is reluctant to change her online habits	- Struggles with project collaboration—unsure which apps to use in certain scenarios - Wants a seamless transition	- A simple guide on Teams for online class management and easy-to-find training on recording lectures. - Adjust to new technology and prepare to teach two lectures this upcoming semester.

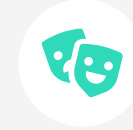

Stacy Torres

Adjunct professor, NU London | Female | 39.

Adjust to new technology and prepare to teach two lectures this upcoming semester.

 Journey Step	Browsing NU IT website for help with M365 apps → She visits the DigiU site and sees link to Teams site → Visits Teams site and sees links to FAQ, download, and trainings.  → Downloads Teams through link, revisits Teams site to look at other links  → Watches trainings to help set up her Teams for her two classes				
 Feeling	 Slight Anxiety	 Intrigue, interest	 Spike of anxiety	 Relief	 Empowered
 Thought	When did technology become so complicated? I guess I have to learn about all these apps now...	This could be a nice place to start. I've heard about professors using this app, it must be standard nowadays	I'm not sure where to start! I guess I should download Teams first and foremost	Downloading Teams wasn't that bad... I'm sure these trainings will help me set up.	That was pretty straightforward! Setting up other apps shouldn't be too difficult...
 Internal ownership What measures should be taken in this step from the service side?	- advertising channels should cover all popular SM platforms the target market is used to. - App trailer: use <u>video or stories</u> format to show the app in action. - Video should link directly to play store. 	service action here....	service action here....	service action here....	service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
- Supports undergrad and graduate students by guiding them through course selection, degree planning, and other resources. - Juggles multiple student appointments, admin tasks, and university-wide meetings. - Tech-savvy but lacks time to explore new tools deeply.	- Manages student records and notes using a mix of SharePoint, OneDrive, and local files - Prefers quick tutorials rather than long training sessions. - Often multitasks and needs tools that work efficiently with minimal effort.	- Disorganized workflow: Jumps between platforms without a clear system. - Confusion about file storage: Not sure when to use OneDrive vs. SharePoint for student records and team collaboration	Maximize productivity by streamlining workflow using the tools available to him.

Jackson Cheng

Academic advisor, NU London | Male | 29

Maximize productivity by streamlining workflow using the tools available to him.

Journey Step	Browsing ITS site, sees blog about new DigiU site Visits DigiU site and sees available trainings Browses trainings and finds a session about using AI to streamline workflow  Watches on-demand trainings  Integrates the tools and skills he learned into his daily routine
Feeling	 Intrigue  Interest  Motivated  Surprise  Confident
Thought	Interesting! I wonder if they have any resources that could help me become more tech-savvy This must be what I need. I'm sure they have something about streamlining workflow This is exactly what I wanted! And it's an on-demand training too This is so helpful, and easy too! These tools are definitely applicable in my work. With these new tools, i can definitely work smarter and not harder!
Internal ownership	 Internal ownership What measures should be taken in this step from the service side? - advertising channels should cover all popular SM platforms the target market is used to. - App trailer: use <u>video or stories</u> format to show the app in action. - Video should link directly to play store. - service action here.... - service action here.... - service action here.... - service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
• Second year International Relations major. • Balancing coursework and a part-time job at Sephora • Ambitious and career-driven, goes to networking events often. • Works both individually and in group settings, often collaborates on projects and presentations.	• Uses OneDrive to store files but struggles to keep them organized. • Manages deadlines through personal to-do lists but wants a more cohesive system. • Goes to career development workshops and wants to improve her proficiency in workplace tools.	• Switches between M365 and Google platforms, which causes disarray. • Wants to integrate her class schedule, internship deadlines, and research work in a single place.	• Discover productivity hacks for Outlook, To Do, and Planner. • Efficiently manage group projects, coursework, and professional responsibilities.

Jordan Carter

Undergraduate Business Administration major, NU London | Female | 20

 Efficiently manage group projects, coursework, and professional responsibilities.

 Journey Step	Googling "Northeastern OneDrive guide" and sees link to M365 website Visits Microsoft 365 page, sees OneDrive resources Linked to OneDrive guides & resources Watches OneDrive LinkedIn Learning and implements learnings Keeps files cleanly organized, easily shares documents with her group members
 Feeling	 Curious, hopeful  Encouraged  Uncertain but eager to learn  Relieved  Confident
 Thought	It's nice that there are specific resources for Microsoft within Northeastern. This might help me out. That was easy to find! What kind of resources will there be? The Microsoft resource only covers the basics, so I'll check out these video tutorials This was so helpful! Now I know an easier way to share files with my group members This system is so convenient, I hope I can keep this up!
 Internal ownership What measures should be taken in this step from the service side?	• advertising channels should cover all popular SM platforms the target market is used to. • App trailer: use <u>video or stories</u> format to show the app in action. • Video should link directly to play store. • • service action here.... • service action here.... • service action here.... • service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
- Runs multiple research projects, often collaborating with graduate students - Balances teaching graduate courses and mentoring research assistants - Frequently works with project files and reports that need to be shared across teams.	- Uses OneDrive and SharePoint to store and share research papers, datasets, and experiment results. - Comfortable with tech, but doesn't know advanced functions. - Frequently needs to share large files with researchers outside the university.	- Unsure about the best way to share sensitive research findings internationally while complying with university policies. - Spends too much time digging through files to find relevant documents due to disorganization.	Organize research documentation and reports with M365 and share documentation with his team.

Tristan Bennett

Lab researcher, NU Oakland | male | 30

Organize research findings with M365 and share documentation with his team.

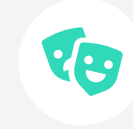

Journey Step	Googling Northeastern Microsoft resources, finds Microsoft 365 site	Visits Microsoft 365 page, sees "Faculty and Staff only" resources	Reads NU-provided guides on Staff Notebooks	Organizes research projects into OneNote Notebooks	Seamlessly shares OneNote to the appropriate people with the appropriate permissions
Feeling	Skeptical, curious	Optimistic	Engaged, hopeful	Motivated	Empowered
Thought	I know there has to be a better way to organize my research. Maybe Northeastern has some official recommendations.	Looks like there are tools specifically for faculty. Hopefully, there's something that fits my needs.	This actually looks like a solid way to keep my projects structured. I should try setting up my own system.	This is way more intuitive than my old system! Everything is in one place, and I can finally stop searching through endless files.	Now my team has access to exactly what they need without me having to constantly resend files.
Internal ownership	- advertising channels should cover all popular SM platforms the target market is used to. - App trailer: use <u>video or stories</u> format to show the app in action. - Video should link directly to play store. 	service action here....	service action here....	service action here....	service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
- Acts as the first point of contact for students, faculty, and external visitors - Always juggling multiple tasks at once. - Manages faculty schedules, departmental emails, event coordination, and documentation.	- Uses M365 daily for email, scheduling, management, and communication - Manages events (room bookings, handling RSVPs, ...). - Prefers step-by-step guides and quick reference materials over lengthy training sessions.	- Constant back-and-forth emails due to unclear calendar availability. - Struggles to track important updates across email, Teams, and shared files. - Wastes time on repetitive tasks that could be automated (sending reminders, approving requests, ...).	- Learn how to automate tedious tasks - Improve efficiency in scheduling, document management, and communication to support faculty and staff seamlessly.

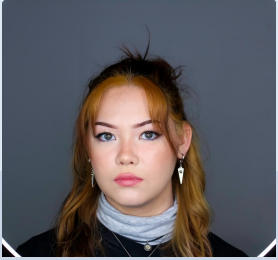

Percy Whitaker
Administrative Assistant, NU Oakland | Male | 25

Improve efficiency in scheduling, document management, and communication to support faculty and staff seamlessly.

 Journey Step	Talking to a friend on IT support team, they recommend M365 site Visits M365 site on their free time, browses apps Finds resources for Bookings Follows provided step-by-step guide on setting up Bookings With the simplified scheduling, he now has more time to focus on his students				
 Feeling	 Open to suggestions	 Slightly overwhelmed	 Hopeful	 Focused, optimistic	 Relieved, accomplished
 Thought	I've been handling so many scheduling requests—maybe M365 has a better solution I haven't considered.	There are a lot of tools here. I wonder if any of these can actually help me manage my workload.	This looks promising! If I can automate scheduling, it could save me so much back-and-forth.	This is actually pretty simple. I should be able to get this up and running quickly.	This frees up so much of my time! Now I can actually focus on helping students instead of managing my calendar.
 Internal ownership What measures should be taken in this step from the service side?	- advertising channels should cover all popular SM platforms the target market is used to. - App trailer: use <u>video or stories</u> format to show the app in action. - Video should link directly to play store. 	service action here....	service action here....	service action here....	service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
• Fourth-year Criminal Justice major • Engaged in student government • Responsible for drafting & presenting proposals and organizing group events • Balances coursework, leadership responsibilities, and co-op applications	• Makes a lot of presentations on Google Slides due to her responsibilities as the "speaker" for student gov. • Very organized on Google Drive files, is reluctant to switch to M365 platforms unless incentivized	• Struggles to find nice templates and Google Slides formats to best fit her needs and aesthetic style.	• Standardize an simple and accessible system for her and the student body • Make engaging and fluent presentations using Microsoft tools.

Christina Hassan

Undergraduate Health Science major, NU Oakland | Female | 21

Make engaging and fluent presentations using Microsoft tools.

 Journey Step	Talking to her friend who uses M365, they recommend PowerPoint Plays around with PowerPoint, sees "Designer" feature Visits NU's M365 page, looks at more PowerPoint resources Visits the linked PowerPoint tips and tricks webpage, reads about features Makes engaging presentations with PowerPoint, following the tips she learned.				
 Feeling	 Open-minded but doubtful	 Impressed, excited	 Curious, motivated	 Inspired	 Confident, accomplished
 Thought	PowerPoint's interface looks a lot more confusing than Google Slides, but maybe it has better features	Wow, this automatically makes my slides look way more professional! This could save me so much time.	If there are more tools like Designer, I should check out what else PowerPoint can do.	These tips are game-changers—I need to start using these.	This is exactly what I needed. My presentations feel so much more dynamic now!
 Internal ownership What measures should be taken in this step from the service side?	• advertising channels should cover all popular SM platforms the target market is used to. • App trailer: use <u>video or stories</u> format to show the app in action. • Video should link directly to play store. •	• service action here....	• service action here....	• service action here....	• service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
• Been teaching lectures for 5 years, first year at Northeastern. • Teaches African Studies fully online. • Still in the process of integrating his system into Northeastern's resources	• Tech-savvy, prefers Google applications over M365 • Relies on Zoom over Teams, struggles with institutional software, prefers mobile-friendly resources.	• Feels that M365 tools are forced upon him rather than adapted to his workflow. • Feels isolated from faculty resources and IT support due to being fully remote.	• Reduce feelings of isolation by connecting to faculty networks and IT support through available resources.

Lance Thompson
Associate Professor, Northeastern Vancouver | Male | 37

Reduce feelings of isolation by connecting to faculty networks and IT support through available resources.

Journey Step	Googling Northeastern ITS and finds DigiU site	Visits DigiU and finds trainings to "get started with Microsoft"	Filters trainings to live sessions only, finds an upcoming training.	Attends the event virtually, follows the workshop, asks questions.	Learns the basics OneNote and PowerPoint while feeling like a part of the community
Feeling	Hopeful but hesitant	Slightly encouraged	Eager	Engaged, reassured	Relieved
Thought	<i>I've been feeling disconnected since joining the university — maybe there's something here that can help me integrate better.</i>	<i>These workshops could be a good way to refresh my tech skills and meet other faculty.</i>	<i>A live session means I can actually talk to people instead of just watching videos. This might help me feel more involved.</i>	<i>The instructor is helpful, and it's nice to hear from other faculty dealing with similar challenges.</i>	<i>Not only did I pick up useful tools, but I also found a place where I can connect with others.</i>
Internal ownership	Internal ownership <i>What measures should be taken in this step from the service side?</i> • advertising channels should cover all popular SM platforms the target market is used to. • App trailer: use <u>video or stories</u> format to show the app in action. • Video should link directly to play store. •	• service action here....	• service action here....	• service action here....	• service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
- Provides tech support to faculty, staff, and students. - Knowledgeable about M365. - Helps run occasional workshops helping students	- References and updates KB articles when answering inquiries but finds them outdated. - Feels somewhat isolated since most university-wide IT activities are focused on Boston and other main campuses.	- Outdated documentation, users asking repetitive questions. - Feels disconnected from campus due to most on-campus activities are on the main campuses	Enhance IT support efficiency by offering a more engaging, hands-on training experience

Conner

IT Support Specialist, NU Vancouver | Male | 27

Enhance IT support efficiency by offering a more engaging, hands-on training experience

 Journey Step	Browsing ITS site, sees blog post about new DigiU site	Visits DigiU site, sees link to trainings.	Finds trainings that would answer a lot of the inquiries he tends to get 	Saves the links of on-demand trainings in a document. 	When answering questions, he gives the faculty/staff the link to the document as an extra resource
 Feeling	 Curious	 Hopeful, motivated	 Relieved	 Proactive	 Accomplished
 Thought	I get a lot of the same tech questions—maybe this new site has something that could help.	This could be a great way to direct faculty and staff to self-help resources instead of troubleshooting the same issues over and over.	These cover everything from OneDrive to Teams—this could really cut down on the number of basic questions I have to handle.	If I organize these now, I can quickly send them to people when they need help.	Now they have easy access to answers, and I can focus on more complex IT issues.
 Internal ownership What measures should be taken in this step from the service side?	- advertising channels should cover all popular SM platforms the target market is used to. - App trailer: use <u>video or stories</u> format to show the app in action. - Video should link directly to play store. 	service action here....	service action here....	service action here....	service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
• First-year undeclared major • Balancing coursework from different fields of study, and general integration into the college environment. • Generally interested in any tech-related field. • Looking for hands-on experiences and opportunities	• Explores tech resources independently, often Googling answers or watching YouTube tutorials. • Attends campus tech events when he finds them • Isn't fully comfortable with M365 tools yet. • Asks a lot of questions, thus prefers hands-on instruction.	• Finds out about relevant events either too late or not at all. • Generally disorganized due to not having a personal system for projects and coursework in high school	• Get comfortable with Microsoft 365 tools through Introductory, beginner-friendly guides.

Kurtis Johnson

Undergraduate (explore program), NU Vancouver | Male | 18

Get comfortable with Microsoft 365 tools through Introductory, beginner-friendly guides.

Journey Step	Googling Northeastern resources and finds DigiU site Visits DigiU and finds trainings to "get started with Microsoft" Finds on-demand videos about setting up Word and OneDrive Watches videos and follows along with setting up Word Learns the basics of organizing Word, feels more prepared to tackle college assignments
Feeling	Curious but slightly overwhelmed Relieved, hopeful Encouraged Reassured Confident, prepared
Thought	I should probably get familiar with Microsoft tools before assignments start piling up. This looks like exactly what I need—beginner-friendly guides to help me get started. These short videos seem easy to follow. I'll start with Word since I know I'll be using it a lot. Oh, I didn't even know about these formatting tools—this is already making things easier. Now I won't waste time struggling with Word when I have actual work to do.
Internal ownership <i>What measures should be taken in this step from the service side?</i>	• advertising channels should cover all popular SM platforms the target market is used to. • App trailer: use <u>video or stories</u> format to show the app in action. • Video should link directly to play store. • • service action here.... • service action here.... • service action here.... • service action here....

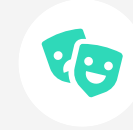

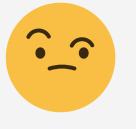

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
- Recently transitioned from adjunct teaching to a full-time role as a Humanities instructor. - Previously relied on Zoom and Google Drive online collaboration, now required to use Microsoft 365.	- Knows how to use digital tools but prefers intuitive interfaces. - Relies on colleagues or online searches when stuck instead of formal IT training. - Wants to be self-sufficient in tech and doesn't ask for help unless absolutely necessary.	- Finds M365's calendar/inbox system unintuitive. - Lacks a step-by-step guide tailored for instructors transitioning to M365. - Doesn't want to rely on IT support constantly—prefers a self-paced learning resource.	Begin teaching journey by growing acclimated to Microsoft 365's apps instead of Zoom & other platforms.

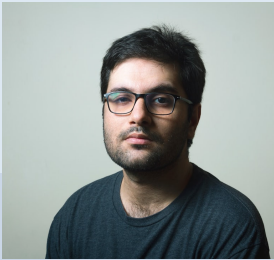

Carrie Whitman

Instructor, NU NYC | Female | 30

Begin teaching journey by growing acclimated to Microsoft 365's apps instead of Zoom & other platforms.

 Journey Step	Sees a link to DigiU site in a faculty/ staff email Lands on the DigiU site and sees link to M365 Clicks on M365 and is redirected to the site Revisits M365 and sees trainings available Watches on-demand trainings and learns about M365 apps				
 Feeling	 Intrigue, interest	 Contemplative	 Spike of anxiety	 Unconfident	 Relief
 Thought	<i>This could be useful... I don't know anything about Microsoft apps!</i>	<i>Interesting! I should probably learn how to use Teams, but honestly, I need help learning every app</i>	<i>Wow, there's so many apps! I don't know where to start! I guess I should learn the basics</i>	<i>This could be helpful, and it's designed for instructors too!</i>	<i>I feel prepared now! I'm ready to use M365 to teach my students</i>
 Internal ownership <i>What measures should be taken in this step from the service side?</i>	• advertising channels should cover all popular SM platforms the target market is used to. • App trailer: use <u>video or stories</u> format to show the app in action. • Video should link directly to play store. •	• service action here....	• service action here....	• service action here....	• service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
• Manages digital resources, research databases, and any student inquiries. • Previously worked at a public library that primarily used Google Drive for collaboration and storing files.	• Highly organized, prefers structured documentation and easily searchable resources. • Relies on cloud storage for archiving library resources.	• Concerned about file security and access permissions, especially with student resources. • Worried about losing access to important documents during the migration process.	• Seamlessly transition into Northeastern's M365 apps

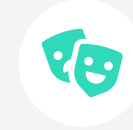

Logan Rivera

Librarian, NU NYC | Male | 25

Seamlessly transition into Northeastern's M365 apps

 Journey Step	Receives an email from IT about migrating to Northeastern's Microsoft 365 system, includes a link to DigiU. Lands on the DigiU homepage, sees the link to M365 Visits M365 site and sees FAQ Finds link to KB article and follows steps to reset password Finds articles about setting up Outlook, calendar, etc., and follows instructions				
 Feeling	 Uncertainty	 Uncertain, curious	 Spike of anxiety	 Relief	 Confident
 Thought	I knew I'd have to change my logins and credentials, but at least they emailed us about it.	They have a whole portal for Microsoft? This must be what I need	I'll need to reset my passwords. This must be something here to reset my password from here!	This is so straightforward! I wonder if these articles can help me set up my apps	That process wasn't bad at all! Now I can begin organizing all my files
 Internal ownership What measures should be taken in this step from the service side?	• advertising channels should cover all popular SM platforms the target market is used to. • App trailer: use <u>video or stories</u> format to show the app in action. • Video should link directly to play store. •	• service action here....	• service action here....	• service action here....	• service action here....

Background	Behaviors & habits	Pain points & frustrations	Needs & goals
• Second-year Media Arts major, was a part of Marymount Manhattan College beforehand • Feels a bit overwhelmed by the transition into new professors, new systems, and different expectations.	• Prefers casual, student-friendly explanations over corporate-style documentation. • Relies on peer support rather than reaching out to IT. • Mostly works on a MacBook, so she finds some Microsoft 365 applications less intuitive than Adobe and Google tools.	• Confused about why M365 is required when she's used Google Drive for everything. • OneDrive and SharePoint seem redundant, and she's not sure where to save things. • Feels disconnected from NU tech culture due to her inexperience, making it harder to ask for help.	• Seamlessly transition into new university and adapt to the technologies they use

Jessie Choi
Undergraduate Media Arts transfer, NU NYC | Female | 20

Seamlessly transition into new university and adapt to the technologies they use

 Journey Step	Receives an email from IT about migrating to Northeastern's Microsoft 365 system, includes a link to DigiU. Lands on the DigiU homepage, and sees link to M365 Redirects to M365 site, sees link to M365 KB Follows the steps on DigiU to set up NU account and M365. Successfully acclimates to M365, joins her Art Fundamentals class Team
 Feeling	 Curious, uncertain  Slight Anxiety  Surprise  Relief  Accomplished
 Thought	Wait, so my old university login won't work anymore? This seems important. This must be what I need to click on... I need to set up my account This might be able to help me set up my account and reset my passwords! I didn't even realize we'd be using Teams instead of Zoom... at least there's a guide. Alright, that wasn't too bad! I think I can handle this new system.
 Internal ownership What measures should be taken in this step from the service side?	• advertising channels should cover all popular SM platforms the target market is used to. • App trailer: use <u>video or stories</u> format to show the app in action. • Video should link directly to play store. • • service action here.... • service action here.... • service action here.... • service action here....

*What are the primary use cases for students?
How often do students actually attend trainings
or use the available resources?*

*What kind of roles would the "Leadership" group
have? AVP? Dean? President? What kinds of
resources would they need/onboard with?*
