

STAY OUT OF THE PHISHING NET

Northeastern University
Information Technology Services

DON'T GET HOOKED BY PHISHERS

Tips to Identify Phishing Scams

1. **Know your sender:** Think before clicking! Avoid opening or clicking links from unknown senders.
2. **Know your content:** Hover the cursor over links to see where they'll direct before clicking.
3. **Keep your info private:** Protect data by keeping Northeastern credentials and personal info private. Never share them over email.
4. **Know the signs:** Recognize the signs of phishing by reviewing emails carefully and verifying their legitimacy.
